## DESCRIPTION

- The Oregon Pain Summit is intended to provide attendees with up-to-date, *and clinically useful*, pain science. During the Summit attendees will learn how all pain is constructed, its function, and the impact of other health domains on pain. Lecture topics for the Oregon Pain Summit are specially curated to complement and bring depth to the information presented in the Oregon Pain Management Commission's recently released Pain Education Module. Lecture topics will cover Nutrition, Mood, Movement, Motivational Interviewing and Sleep. Lectures will be presented by a variety of healthcare professionals.

To inquire about special codes for Scholarships and Resident pricing, please email the organizer, contact information listed below.
